FUTHER DETAILS

THE COMFORTABLE TROUSERS FOR HEALTHCARE, NURSING AND THERAPY

These unisex trousers are ideal for **doctors, medical professionals, nursing staff and therapists**. They are suitable for use in **hospitals, medical practices and medical care centres** as well as in **care facilities, home care and therapy practices**. Their straightforward design, comfortable fit and durable fabric make them a reliable choice for long and active working days.

Particularly suitable for:

Doctors working in hospitals, medical practices and medical care centres
Medical professionals in practices and healthcare facilities
Nursing staff in residential care facilities
Nursing staff in home and outpatient care
Physiotherapy, occupational therapy and other therapeutic professions

The **comfortable relaxed fit** offers plenty of freedom of movement – whether during examinations and treatments, in nursing care, during therapeutic applications or when covering longer distances in hospitals and care facilities. Thanks to the elasticated waistband with integrated drawstring, the trousers can be adjusted individually and remain comfortable when walking, sitting and working. The **two practical side pockets** keep smartphones, keys and smaller work essentials close at hand.

WASHING INSTRUCTIONS

95°C Boiling wash (normal process)
Bleaching allowed
Mild drying process
Iron at moderate temperature
Professional dry cleaning

Suitable for industrial laundering - ISO 15797

The **durable cotton-polyester fabric** is designed to meet the daily demands of healthcare, nursing and therapy. The trousers are **washable at up to 95°C** and **suitable for industrial laundering according to ISO 15797**. This makes them particularly suitable for working environments where hygienic and professional processing of workwear is important.

As a **unisex model available in regular and long sizes**, these trousers are a practical solution for providing teams with a consistent look – from **medical practices and medical care centres to hospitals, care facilities, outpatient nursing services and therapy facilities**.
