The finishing touches for your outfit.

This catalogue is valid from 2022 to 2024.  
For production reasons, we reserve the right to make changes to individual products. Printing errors reserved.  
Many thanks to the team at DELICATO Foodservice & Kitchen Bar in Cologne for their generous cooperation (www.delicatofood.de).

# BP Gourmet®

We make clothing for people like you, who identify with their work and who give their best every day. For when things start to heat up, but you and your clothes have to stay cool. For moments when you are handling multiple tasks at the same time but still want to present yourself in the best light to guests.

For precisely these situations, the new BP Gourmet® collection offers you the combination of perfect fits, stylish designs and durable, high-quality materials. Each and every BP® item is a product of our passion and commitment as well as our social, ecological and economic sustainability measures.

We are not just talking about materials, fabrics and yarn. The impact goes much further, with lower electricity consumption, smaller quantities of packaging material and reduced CO<sub>2</sub> emissions from transportation. We here at BP® aim to be CO<sub>2</sub>-neutral by 2030 and 50% of our products are recyclable.

Be a part of this exciting future with BP Gourmet®.

- 04 The BP® design**  
Designed for our wearers.
- 06 The BP® quality**  
You can rely on us.
- 06 The BP® logo service**  
Make it your own.
- 07 The BP® responsibility**  
Together for more sustainability.
- 08 BP® chef's jackets**  
Functional and light.

Everything at a glance.
- 18 BP® chef's and service trousers**  
The right fit for every figure.
- 26 BP® chef's and service trousers**  
Everything at a glance.
- 28 BP® aprons & accessories**  
The finishing touches for your outfit.
- 30 BP® Essentials**  
The perfect complement.

## Suitable for industrial laundering

The majority of BP® products carry the **PRO label**. The PRO label indicates that the product meets the requirements of ISO 30023. Tests have been conducted for suitability for industrial laundering in accordance with ISO 15797. However, the PRO label does not provide any specific care instructions. Real-life test washes in an industrial laundry should be carried out before using any BP® product.

## Appropriateness for industrial laundering

Some of our products do **not** carry the PRO label. Nevertheless, they may be washed in an industrial laundry in certain circumstances. Extensive test washes should, however, be carried out on these products, to ensure the correct care procedures are used. We classify our products' appropriateness for industrial laundering as follows:

-  **Low level of appropriateness for industrial laundering:** ≤ 40 °C, air drying
-  **Medium level of appropriateness for industrial laundering:** ≤ 60 °C, lower drying temperature
-  **High level of appropriateness for industrial laundering:** ≤ 75 °C, tumble/tunnel finisher drying

Successful cleaning and the wear and tear on clothing are determined by the following four basic parameters: chemistry, mechanics, temperature, time (Sinner's Circle). To keep things simple, the classification above only considers the washing and drying temperature. The other factors should naturally also be taken into account when carrying out real-life test washes.

The classifications regarding appropriateness for industrial laundering can be found next to the product illustration.

# What makes BP® design so special?

**Unique:** BP® design is an expression of high quality, advanced technologies and respect for the wearers of our clothing.

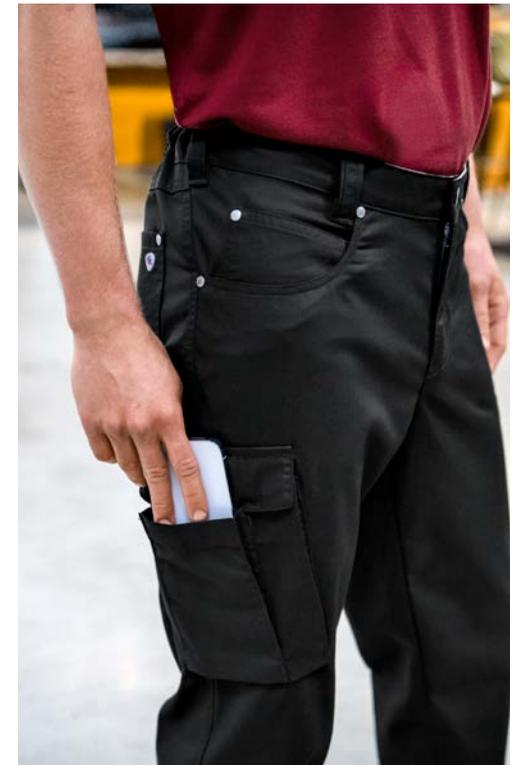

**Innovative:** BP® design takes account of the latest technical developments and changes in the way our clothes are used.

**Durable:** BP® uses resources sparingly and conscientiously. Our designs remain stylish for many years to come.

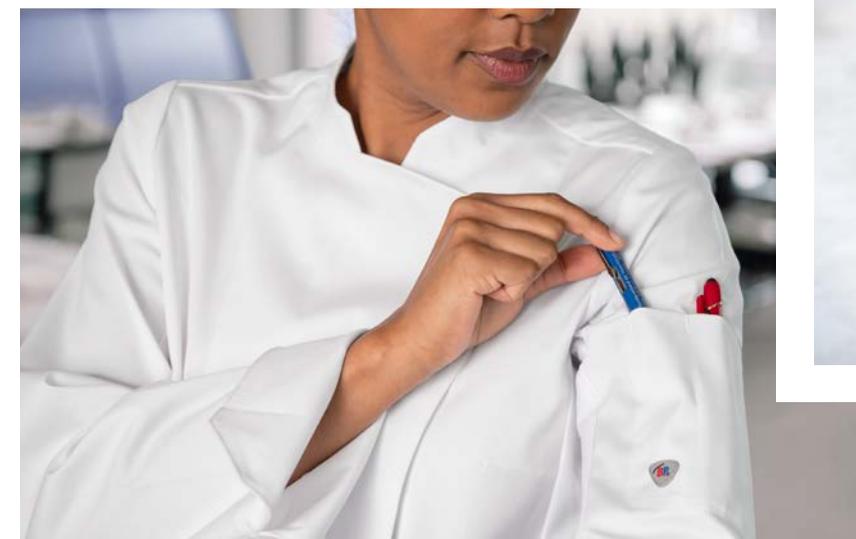

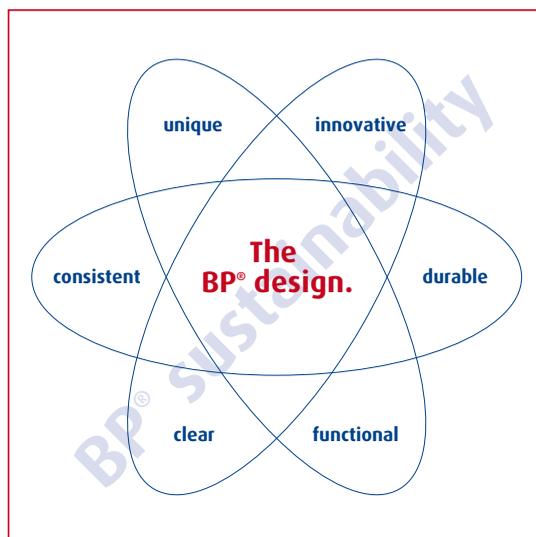

**Functional:** BP® design considers, above all else, how our clothes will be used on a daily basis, and ease of use is our ultimate goal in product development.

**Clear:** BP® design is clear and self-explanatory, though the clothes are designed with not only function but also aesthetics in mind. This makes them an essential part of your work day.

**Consistent:** BP® design leaves nothing to chance and is consistently thought through down to the last detail.

BP® design is always oriented towards our wearers and their many needs.

**BP® quality:  
you can rely  
on us.**

Stephan, BP® quality laboratory

BP® has work clothing solutions for physically demanding work settings that call for clothing you can rely on.

The collection also uses materials of the highest quality. Our own BP® quality laboratory in Cologne ensures a consistently high level of attention to all of the clothing details that matter to you in your daily work, helping to make your working day that little bit easier.

This is all the result of many years of development work, lots of one-to-one discussions with our customers, of expertise and a great deal of passion and creativity.

We make the difference you can feel and rely on.

Names, logos, lettering or motifs - with BP®, you can easily individualise your Gourmet workwear.

Our options, namely

- > embroidery
- > embroidered emblem
- > transfer print

are always tailored to the respective BP Gourmet® product.

And, of course, all finishing materials used by BP® are suitable for industrial laundering in compliance with ISO 15797.

**The BP® logo service:  
make it your own!**

When reviewing sustainability in the textile chain, we work with high-profile institutions to create transparency.

In addition, in our annual Sustainability Report we report on our activities, our successes and the areas where there is still room for improvement:

<https://www.bp-online.com/en/about-bp/responsibility/>

We at BP® consider openness and transparency to be the foundation for a process of continuous improvement.

**BP® is committed to responsibility:  
since 1788.**

**Our social responsibility:**

BP® has now been named Fair Wear Leader eight times in succession. The aim of the FAIR WEAR FOUNDATION is to improve working conditions for people working in the international clothing industry.

The **Supporting Fairtrade Cotton** programme targets the people right at the start of the value-added chain in the textiles sector: the farmers who grow and harvest the cotton.

This programme allows the farmers to sell greater quantities of their cotton, which not only opens up new avenues to fair trading conditions but also creates opportunities for social change.

One of many sustainable BP® partnerships.
