BP[®] Hi-Vis Stretch: more flexibility,
more functionality, more comfort.

www.bp-online.com

BIERBAUM-PROENEN. SINCE 1788.

— HI-FIVE FOR — BP® HI-VIS STRETCH

HI-STRETCH | HI-QUALITY | HI-LIGHT
HI-FUNCTION | HI-COMFORT

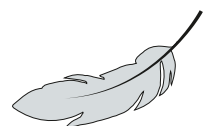

BP® Hi-Vis Stretch is the innovative new addition to our BP® Hi-Vis Comfort collection. It stands for more functionality, comfort and fit. The items in the collection can be used in a wide variety of settings, e.g. in **waste management, transport, road or rail construction**, which makes them the perfect apparel choice – in any situation, in any weather.

Discover the new BP® Hi-Vis Stretch collection and our many other additions with perfectly coordinating T-shirts, outdoor items, various trousers, waistcoats and jackets.

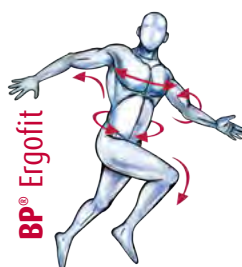

HI-FIVE for BP® HI-VIS STRETCH:

- 1. HI-STRETCH** **High flexibility:** the innovative BP® Hi-Vis **Stretch fabric** means even greater freedom of movement and comfort.
- 2. HI-QUALITY** **High quality:** this new collection has the same tested BP® quality that you know and rely on. UV protection? Of course. And suitability for industrial laundering too.
- 3. HI-LIGHT** **High lightness:** perfect in summer and in warm settings. The work trousers and shorts, made of **light 230 g/m² fabric**, allow you to work in complete comfort.
- 4. HI-FUNCTION** **High functionality:** with the new **BP® 3D Ergofit cut**, the work trousers offer the best in ergonomic properties and fit your body perfectly. Segmented reflective strips, new pocket solutions as well as intelligent details such as vents at the knees and the comfort waistband make these items one of a kind.
- 5. HI-COMFORT** **High comfort:** thanks to new product features, the BP® Hi-Vis Stretch collection goes above and beyond the typical BP® wear comfort. You have to feel it to believe it!

BP® HI-VIS STRETCH

New, flexible, unique.

BP® HI-VIS STRETCH

The standards:

EN ISO 20471

✓ High-visibility clothing

UV STANDARD 801

✓ Integrated UV protection

EN 14404

✓ Knee protection for work in the kneeling position

This is what BP® Hi-Vis Stretch offers you:

BP® Hi-Vis Stretch has everything that makes working outside more comfortable: stretch fabrics that are extremely comfortable, sustainable and suitable for industrial laundering. A special cut that makes it much easier to work while squatting or kneeling. Segmented reflective strips and a cool bicolour look in the base colours warning orange and warning yellow complete your modern style. The design fits perfectly with our collections BP® Hi-Vis T-shirts, Sweats and Outdoor.

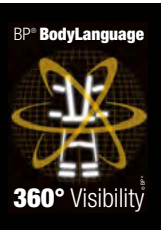

Experience the new feel of **BP® Hi-Vis Stretch**.

Possible application areas:

- Public works
- Waste management
- Transport services
- Supply and disposal companies
- Logistics companies, production facilities
- Recycling companies
- Maintenance yards
- Road building, structural and civil engineering

The high-visibility protection classes in combination:

Class 3: the combination of BP® Hi-Vis Stretch trousers and the BP® Hi-Vis Stretch work jacket complies with high-visibility class 3. The BP® T-shirt 2136 in combination with BP® shorts is also compliant with high-visibility class 3.

The BP® BodyLanguage:

The reflective material is attached according to the "BP® BodyLanguage" principle. In other words, the specific positioning of the retroreflective material outlines the wearer's body silhouette. This results in high all-round visibility of the wearer when it's dark, including from above.

2136-261-0065 Warning orange

All UV protection is not created equal.

That's why it's important to know the difference.

UV Standard 801: with a solar spectrum approximately equivalent to the sunlight in Australia, the textiles are tested for sun protection even when **wet, stretched, washed** or when displaying signs of typical mechanical wear. All BP® Hi-Vis T-shirts are tested according to this standard and offer a minimum protection of Protect 30, which roughly corresponds to sun protection factor 30. The tested fabrics of the BP® Hi-Vis collection offer a Protect value of 80.

EN 13758: this standard is a test of UV radiation on textiles in **new, dry and unstretched** condition with a solar spectrum approximately equivalent to the sunlight in New Mexico (USA). Thus, a supposedly higher UPF (Ultraviolet Protection Factor) can be reached. According to this test, BP® T-shirts have a UPF of 50+.

BP® always chooses to play it safe and thus has the BP® Hi-Vis collection tested according to the UV Standard 801.

BIERBAUM-PROENEN. SINCE 1788.

**BP® quality:
you can rely
on us.**

Stephan, BP® quality laboratory

BP® has professional clothing solutions for physically demanding work settings that call for clothing you can rely on.

Our new Hi-Vis items boast **innovative design**, **perfect fits** and practical, intelligent **functional solutions**.

The collection also uses materials of the highest quality. Our own BP® quality laboratory in Cologne ensures a consistently high level of attention to all of the workwear details that matter to you in your daily work, helping to make your working day that little bit easier.

This is all the result of many years of development work, lots of one-to-one discussions with our customers, of expertise and a great deal of passion and creativity.

We make the difference you can feel and rely on.

Names, logos, lettering or motifs – with BP®, you can easily individualise your Hi-Vis clothing.

Our options, namely

- > **embroidery**
- > **embroidered emblem**
- > **transfer print**

are always tailored to the respective Hi-Vis product.

And, of course, all finishing materials used by BP® are suitable for industrial laundering in compliance with ISO 15797.

**The BP® logo service:
make it your own!**

When reviewing sustainability in the textile chain, we work with high-profile institutions to create transparency.

In addition, in our Sustainability Report we report on our activities, our successes and the areas where there is still room for improvement:

www.bp-online.com/en/bp-responsibility

We at BP® consider openness and transparency to be the foundation for a process of continuous improvement.

**BP® is committed to responsibility:
already since 1788.**

Our social responsibility:

BP® has now been named Fair Wear Leader seven times in succession. The aim of the FAIR WEAR FOUNDATION is to improve working conditions for people working in the international clothing industry.

The **Supporting Fairtrade Cotton** programme targets the people right at the start of the value-added chain in the textiles sector: the farmers who grow and harvest the cotton.

This programme allows the farmers to sell greater quantities of their cotton, which not only opens up new avenues to fair trading conditions but also creates opportunities for social change.

One of many sustainable BP® partnerships.
