BP[®] Multi Protect Plus:
The energy your team needs.

COLLECTION OVERVIEW

BP® Multi Protect Plus. Energie durch mehr Sicherheit und Tragekomfort.

Energy for women.

In the new BP® Multi Protect Plus women's collection we have focused on the anatomy and the needs of our female wearers right down to the last detail.

Energy thanks to colours that fit your team.

Certified knee protection.

All of the trousers in the BP® Multi Protect Plus collection have certified knee protection.

Benefit from the choice we offer.

Our BP® Multi Protect Plus collection is comfortable, lightweight and features modern designs in new colour combinations such as warning yellow/night blue, warning orange/anthracite and anthracite/black.

The collection comprises a wide range of professional, lightweight and durable products that support your team in all working situations and weather conditions.

Multi-standard protection for more safety.

Thanks to practical details such as inherent flame resistance and protection from electric arcs, the BP® Multi Protect Plus collection is ideal for **working under voltage**.

With details such as segmented reflective strips and an arm-lift system, BP® Ergofit offers maximum wear comfort and freedom of movement

Putting our energy into sustainability.

BP® stands for innovation and durability.

BP® has opted to add permanent chemical protection to the collection items in the warning orange/anthracite colour scheme (protection duration: at least 30 industrial laundering washes) in order to reduce the environmental impact of repeated impregnation.

BP® quality is thus not only a guarantee of the highest level of protection but also of environmentally friendly durability.

Our energy: BP® quality.

We make clothing for people who identify with their work and who give their best every day.

The difference is often in the details, such as our hoods which provide wearers with optimal protection from rain, snow and wind while keeping their view clear.

We at BP® all share a passion for outstanding quality, meticulous attention to detail and the pursuit of perfection.

Arc protection class (APC) 1

The standards

All items in the BP® Multi Protect Plus collection:

-  Protective clothing for use in welding and allied processes
EN ISO 11611
Class 1-A1
-  Clothing for protection against heat and flames
EN ISO 11612
A1, B1, C1, F1
-  Protective clothing - electrostatic characteristics
EN 1149-5
-  Protective clothing offering limited protection against liquid chemicals
EN 13034-6
-  Protective clothing against the thermal hazards of an electric arc
APC 1
APC 2 in 2-layer areas

1 and 2 are not applicable for the BP® fleece jacket, BP® hoodie, BP® hybrid trousers and BP® long sleeve T-shirt.

BP® trousers and BP® coverall:

-  Knee protection for work in the kneeling position
EN 14404

BP® weatherproof items:

-  Wind and weatherproof clothing
EN 343
-  Clothing for protection against cool environments
EN 14058

BP® high visibility items (warning yellow and warning orange):

-  EN ISO 20471
-  360° Visibility

The combination of a BP® Multi Protect Plus pair of trousers and a BP® Multi Protect Plus jacket complies with high visibility class 3.
