

workwear

BPlus collection:
work clothing for a strong team.

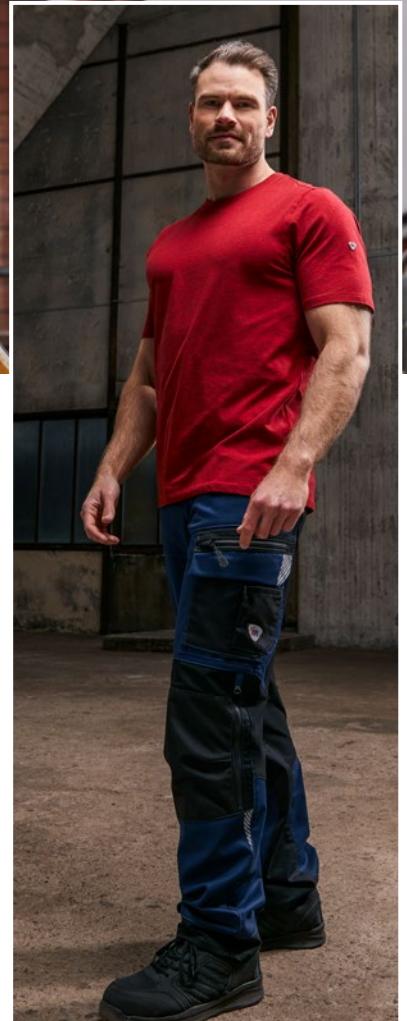

COLLECTION OVERVIEW

Flexible and robust – nothing embodies these qualities quite like nature itself. If you have ever witnessed the powerful, yet agile movements of a cheetah or a wolf, then you know precisely what we mean.

In developing our BPlus hybrid trousers we took our inspiration from nature. The result: super-stretch work trousers made of robust fabric that combine maximum freedom of movement, the highest level of wear comfort and durability. But that's not all: these lightweight hybrid trousers also feature a modern design and are appropriate for industrial laundering.

**Flexible, lightweight, robust:
the new BP® hybrid trousers are
the stars of the BPlus collection.**

Unlimited combination possibilities.

Regardless of whether it's with one of our T-shirts or our hoodies, the new BP® hybrid trousers can be perfectly combined with all the BP® Essentials, ideally equipping you for every kind of work situation.

BPlus offers a wide range of fits, practical details and colours, allowing you to kit out your entire team with precisely the right work clothing - individual yet uniform in appearance.

You can find matching BP® T-shirts in our online shop.

Inspired by nature.

The new BP® hybrid trousers are the core of the BPlus collection. We looked to nature to develop trousers that combine maximum freedom of movement, pure comfort and optimum durability. The results are two new super-stretch hybrid trousers with a dynamic design and the highest in quality standards. Try them out for yourself and feel the difference.

The BP® STRETCH advantages ...

... AT THE WAIST:

The trousers stay perfectly in place even when bending or kneeling.

... IN THE SEAT:

Supreme comfort – with every movement.

... AT THE CROTCH:

Complete freedom of movement while walking, running and climbing.

... ON THE KNEES:

The knee pocket keeps the knee pad exactly where it needs to be.

... AT THE BACK OF THE KNEES:

No bothersome folds when kneeling.

STRETCH

Optimum comfort with maximum freedom of movement.

If you want to know just how comfortable modern work clothing can be, try on a pair of our new BP® hybrid trousers. Experience for yourself the perfect combination of optimum comfort with maximum freedom of movement.

The new ergonomic features of BP® hybrid trousers provide targeted support. BP® work clothing solutions adapt to the needs of those who wear them. Whether you are kneeling or lying down, the stretch fabric is very elastic and flexes with you during every movement.

The mix of materials makes it possible.

How did we manage to combine maximum freedom of movement and excellent wear comfort with durability in our BPlus hybrid trousers? By combining the best characteristics to create the ideal material: a super-stretch, robust fabric. In addition, the trousers feature innovative, practical details and stretch elements in just the right places to make your work day noticeably easier. This allows you to clear every hurdle with ease and concentrate on carrying out your job with passion.

More sustainable than ever.

Our BPlus Green hybrid trousers (see picture right) are more sustainable than ever – produced using recycled materials and Fairtrade cotton. And we manufacture them largely without the use of impregnating agents. The fabric is particularly durable and appropriate for industrial laundering.

Our quality is our greatest contribution to sustainability.

Our greatest contribution to sustainability is the quality and durability of our products. It's our claim at BP® to produce long-lasting work clothing. The durability of our garments means we can help to conserve valuable resources, not just in terms of the materials and yarns that we use. We can also reduce our energy consumption and carbon emissions.

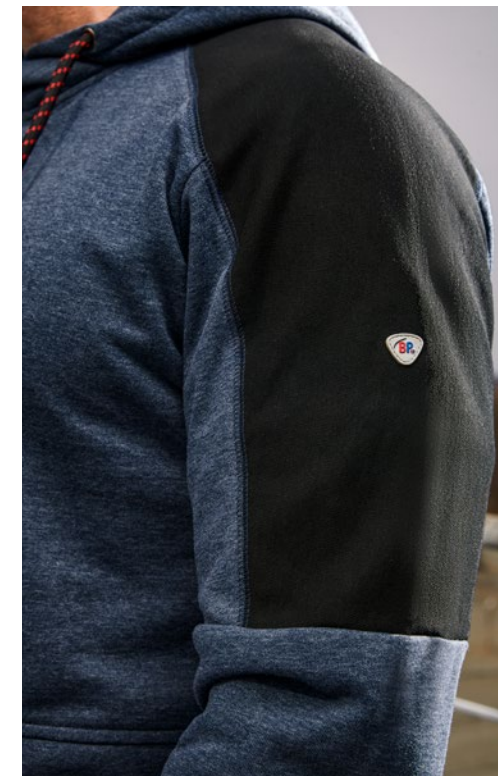

4 materials,
4 types of fibre,
540 m recycled yarn,
82 pattern pieces,
21 findings
and 1 BP® logo,
our quality seal.

100%
passion

BP® Robust hybrid work trousers
with knee pad pockets
1818-565-5632

A passion for every detail.

With workwear from BP® you will immediately feel the difference: commitment, passion and an attention to detail that we use to perfect each and every functional element.

The excellent quality produced at BP® is all thanks to our goal of improving together every day and of developing work clothing solutions for people who are passionate about their jobs and give their all every single day.

BP®

Further product information is available in our BPlus brochure and in our online shop.

You can find matching BP® T-shirts in our online shop.

FAIR WEAR

Our social responsibility.
The aim of the FAIR WEAR FOUNDATION is to improve working conditions for people working in the international clothing industry. BP® has now been named Fair Wear Leader nine times in succession.

SUPPORTING COTTON

In 2019, together with a project group and Fairtrade, we set up the Supporting Fairtrade Cotton pilot project, enabling farmers to sell larger quantities of their cotton under Fairtrade conditions. In this way we are opening up access to fairer trading conditions, social change and greater environmental protection. More information at www.info.fairtrade.net/sourcing

Member of the Partnership for Sustainable Textiles

Sustainable supply chain.
The Partnership for Sustainable Textiles, an initiative launched by the German Federal Ministry for Economic Cooperation and Development, aims to ensure social, ecological and economic standards along the entire production and supply chain in the clothing sector. BP® is actively involved in the Partnership for Sustainable Textiles.

Sustainability through transparency.

For more information on BP® sustainability and our certifications, simply scan the QR code.

STANDARD 100
by OEKO-TEX®

Tested for harmful substances.
Our responsibility also means that BP® products are harmless in terms of human ecology. That is why all BP® products are tested for harmful substances and most are certified in accordance with Oeko-Tex® Standard 100.

STeP
by OEKO-TEX®

Sustainable management.
Some suppliers and producers are certified by StEP. StEP carries out comprehensive analyses to check whether companies and production facilities are being managed sustainably in relevant areas such as chemical and environmental management, health and safety, social responsibility and quality management.

Make your team strong with the **BPlus** collection.
