**BP® quality.
You can
rely on us.**

The sheer joy of quality. An eye for detail.
And it all fits like a glove. This is the passion that
brings us together.

Stephan, BP® quality laboratory

We make clothing for people who identify with their work and who give their best every day.

BP® offers the perfect professional clothing solution for every setting, and the healthcare sector is no different.

With clothes that can cope when you need to be physically active, giving you flexibility and helping you keep your cool. And clothes that let you multitask, with useful pockets in just the right places. For moments in which you just want to present yourself in the best light.

For this, you need an innovative design, appealing colours, a comfortable, precise fit and practical, intel-

ligent functional solutions. You also need high quality materials and accessories. Our own quality laboratory in Cologne ensures a consistently high level of attention to all of the workwear details that matter to you in your daily work, helping to make your working day that little bit easier.

This is all the result of many years of development work, lots of one-to-one discussions with our customers, expertise, and a great deal of passion and creativity.

We make sure you can feel the difference.

**Experience stretch.
For your comfort.
Every day.**

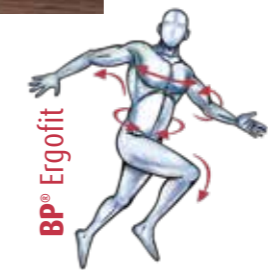

Whether it's something roomy or more form-fitting: with the BP® materials and fits, we have something for everyone. Your freedom of movement is never restricted.

It's the little details that make working in our clothes easier: for example, the ergonomic cut that ensures your work trousers fit perfectly or the BP® arm-lift system that makes reaching up a cinch.

Our new highly functional materials with stretch fabric are breathable and lightweight and they give you extra support as you go about your work. They hug your figure for a sleek, smooth look. They are comfortable, give you support and keep their shape even after frequent washing and wearing.

Experience the feeling and the freedom of BP® clothing with stretch comfort.

STRETCH

Cotton plucker,
photo: Fairtrade/Sean Hawke

The Supporting Fairtrade Cotton programme targets the people right at the start of the value-added chain in the textiles sector: the farmers who grow and harvest the cotton. This programme allows the farmers to sell greater quantities of their cotton, which not only opens up new avenues to fair trading conditions but also creates opportunities for social change.

Together for more sustainability.

In particular, this means:

- Small-scale cotton farmers receive a stable minimum price.
- A Fairtrade premium is allocated to community projects (e.g. educational opportunities for children).
- Environmental standards limit the use of pesticides.
- The use of genetically-modified seeds is prohibited.
- Exploitative child labour is prohibited.
- Specific training measures provide economic and ecological support for small-scale farmers.

BP® participates in the Supporting Fairtrade Cotton programme and has committed to continually increasing the percentage of Fairtrade cotton purchased in the coming years.

TENCEL®

One fibre – many benefits!

With the addition of Lyocell, a fabric made out of renewable resources (TENCEL® brand name), we are extending our BP Med & Care® collection to include a material that offers unique comfort and sustainability.

Moisture-regulating and breathable

Unlike many other materials, TENCEL® has moisture-regulating properties. Sweat is absorbed much more quickly, keeping the wearer pleasantly dry and comfortable. As the absorbed liquid evaporates, the fine and particularly smooth material also has a special cooling effect on the skin.

Long-lasting

TENCEL® garments are exceedingly robust and long-lasting as the closed surface of the fibres prevents any rapid loss of shape or colour.

Hygienic

The moisture-wicking properties of TENCEL® have a positive knock-on effect combating bacteria and unpleasant odours even after heavy perspiration.

Kind to the skin

The TENCEL® fibres, which are especially soft compared with other materials, are silky smooth and ideal for sensitive skin.

Suitable for industrial laundering

Our TENCEL® products can be industrially laundered in accordance with ISO 15797.

Environmentally friendly

Compared with alternative materials, the production process uses less natural resources like water.

You can find our tunics made of Tencel® on page 38.

BP® is committed to responsibility. Since 1788.

When reviewing sustainability in the textile chain, we work with high-profile institutions to create transparency. In addition, in our Sustainability Report we report on our activities, our successes and the areas where there is still room for improvement (www.bp-online.com/en/bp-responsibility). We at BP® consider openness and transparency to be the foundation for a process of continuous improvement.

An eye on the world.

We create sustainable values for the people who work with us. Economic success equips us for the future. We stand for fair working conditions and use natural resources responsibly.

Basic principle 5 of the BP® identity

Our social responsibility.

The aim of the FAIR WEAR FOUNDATION is to improve working conditions for people working in the international clothing industry. BP® has now been named Fair Wear Leader seven times in succession.

Fairtrade cotton.

In 2019, together with a project group and Fairtrade, we set up the Supporting Fairtrade Cotton pilot project, enabling farmers to sell larger quantities of their cotton under Fairtrade conditions. In this way we are opening up access to fairer trading conditions, social change and greater environmental protection. More information at www.info.fairtrade.net

Sustainable supply chain.

The Partnership for Sustainable Textiles, an initiative launched by the German Federal Ministry for Economic Cooperation and Development, aims to ensure social, ecological and economic standards along the entire production and supply chain in the clothing sector. BP® is actively involved in the Partnership for Sustainable Textiles.

Tested for harmful substances.

Our responsibility also means that BP® products are harmless in terms of human ecology. That is why all BP® products are tested for harmful substances and most are certified in accordance with Oeko-Tex® Standard 100.

Sustainable management.

Some suppliers and producers are certified by STeP. STeP carries out comprehensive analyses to check whether companies and production facilities are being managed sustainably in relevant areas such as chemical and environmental management, health and safety, social responsibility and quality management.

Excluding environmentally harmful substances.

Some suppliers are bluesign® system suppliers. This label eliminates harmful substances right from the beginning of the manufacturing process, and sets and controls standards to ensure that production is environmentally friendly and safe.

Our most sustainable promise of all: BP® quality.

For environmental sustainability, we focus on three principles: eliminate, reduce and recycle. We feel that eliminating, meaning a sparing use of resources, is especially important. We are convinced that the long-lasting nature of BP® products is one of the biggest contributions to sustainability because it saves valuable resources and preserves the environment.

- 150 g cotton
- 150 g polyester
- 300 m yarn
- 5 press studs
- 25 pattern pieces
- 28 minutes of sewing

100% passion

Emna, VETRA (BP® production company in Tunisia)

Sustainability through longevity.

Take, for example, the 1702 tunic from our BP Med & Care® collection. We need cotton and polyester to make it. It comprises 25 pattern pieces, 5 press studs, 300 metres of yarn and the BP® logo – our quality seal. Our sewing team lovingly turn these resources into a tunic.

But if we use all of our expertise, our sophisticated quality management systems and our passion for quality to double the lifespan of this tunic – a tunic which we sell by the thousands, we can help to conserve valuable resources. And if we then take all of our BP® products into account, we are talking about a good few million items of clothing per year.

This is why thinking about sustainability makes perfect sense. Long-lasting products are sustainable. And they make a real difference to the people involved in value creation, to the environment and, ultimately, to the people who wear our clothes.

We, as an owner-operated company, have learned through the experience of seven generations that the biggest contribution to fair working conditions and high quality comes from long-term supplier relationships. Over the many years of trusted cooperation, the idea of a process that is continually improved upon has been lived out. We are proud that most BP® clothing items come from production partners that we have worked with for more than ten years. Almost all the production partners are family companies, just like us.

Make it your own.

DIRECT EMBROIDERY
Very hard-wearing and particularly distinguished-looking. Our quality yarns are as indifferent to frequent washing as they are to the stresses of everyday wear. Lots of colours and font types are possible.

The BP® logo service for a great look.

Names, logos, lettering or simple motifs – with BP®, you can personalise your clothing.

The advantage: this highlights the sense of togetherness of whole teams and also, of course, the personality of the individual. Clothing can also be used to communicate the corporate design of the practice, clinic or laboratory. There are lots of colours to choose from.

The options we offer, namely direct embroidery, embroidered emblem or transfer print, are always tailored to the specific product. Furthermore, all

finishing materials used by BP® are suitable for **industrial laundering in compliance with ISO 15797.**

EMBROIDERED EMBLEM

Your logo, company or personal name can be sewn onto the fabric.

TRANSFER PRINT
This is robust individualisation using a film transfer print for printing your logo, name or motif on almost any fabric. Here, too, we offer a large range of colours, sizes and forms.

Because everybody is different.

Cater for every team member and their individual style.

It's our mission to develop the perfect BP® fit and the right BP® product for every body type and every style.

Healthcare workers are constantly on the move and often exposed to high temperatures. This is why you will find a wide variety of innovative, comfortable and extremely lightweight material combinations in our BP® tunic range. As either a slip-in tunic or a tunic with buttons – we have the right style for everyone. Available in women's or unisex fit in a wide variety of colours, with up to twelve new colour options.

You can now choose from five trouser fits in our BP® trousers range. From Skinny Fit to Slim Fit, Modern Fit, Regular Fit to Relaxed Fit – there is something for every body shape. All, of course, appropriate for hygienic and industrial laundering.

Colour example:
BP® Women's casual tunic 1738.
You can find even more colours in our T-shirts chapter starting on page 102.

BP® solutions to suit every style:

- ✓ The right fit for every body type
- ✓ The right colour for everybody
- ✓ For women and men
- ✓ Extremely lightweight stretch fabric
- ✓ Versatile and personalised combination options

BP® Lab coats. For a professional appearance.

BP® LAB COATS

BP® Lab coats. More than just a coat.

BP® lab coats are smartly designed to help you through your workday; they offer everything from stretch sleeves (to pull up easily when washing your hands) to stable, intelligent pocket solutions. Whether you work in a lab, pharmacy, doctor's office or clinic: our coats are always the perfect partner. You have the choice between pure cotton or an easy-care fabric blend. For slim fits, also with stretch fabric. A modern look, the highest wear comfort - all inclusive.

BP® Winter soft-shell jacket 1869-572-56

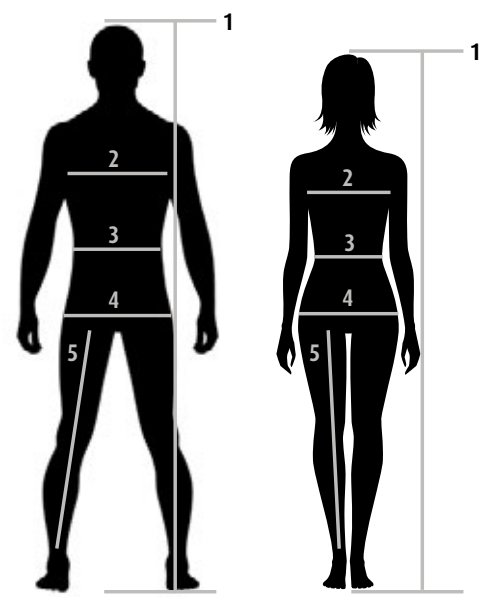

Matching T-shirts: you'll find a large selection on pages 102-113.

Lots of BP® products are available in three lengths.
Note the following code for your size: **s** (short), **n** (regular) or **l** (long).

The right size for everyone.

This is how you measure correctly:

- 1 | Height: Measure from the top of the head to the floor
- 2 | Chest size: Measure around the fullest part of the chest
- 3 | Waist size: Measure around the narrowest part of the waist
- 4 | Hip size: Measure around the fullest part of the hips
- 5 | Inside leg length: Measure from the crotch down to the desired leg length

It's important that your professional clothing not only gives you an appearance that commands honour and respect, but that it also provides protection for you and your patients. That's why clothing care is emphasized in current hygiene regulations for health and care professions. By washing white or coloured clothing correctly you not only remove visible dirt, but you also reduce the risk of spreading illnesses.

When choosing your professional clothing it's important to pay attention to washability. After all, in addition to frequent wear it also has to stand up to a lot in the wash. We pay attention to the performance of our clothes, both in the choice of materials and the manufacture, so that you can enjoy wearing them for longer.

We provide you with care instructions on each and every product on the sew-in label.

The right care

Washing				
	Normal washing programme	Normal washing programme	Normal washing programme	Gentle cycle
Ironing				Bleaching
	Do not hot iron Caution when ironing with steam (110°C)	Moderately hot iron (150°C)	Hot iron (200°C)	
Drying				Cleaning
	Do not tumble dry	Tumble dry, gentle programme (60°C)	Tumble dry, normal programme (80°C)	

Appropriateness for industrial laundering

The majority of BP® products carry the **PRO label**. The PRO label indicates that the product meets the requirements of ISO 30023. Tests have been conducted for suitability for industrial laundering in accordance with ISO 15797, namely using washing programmes (1-8), in the tunnel finisher and/or tumble dryer. However, the PRO label does not provide any specific care instructions. Real-life test washes in an industrial laundry should be carried out before using any BP® product.

PRO label (example)

1, 2 White work clothing and/or coloured trim, peracetic acid bleach
3, 4 White work clothing, chlorine bleach
5, 6 White work clothing and/or coloured trim, hydrogen peroxide
7, 8 Coloured work clothing

Drying symbols

Drying in the tumble dryer
Drying in the tunnel finisher/cabinet finisher

Washing symbols

1, 2 White work clothing and/or coloured trim, peracetic acid bleach
3, 4 White work clothing, chlorine bleach
5, 6 White work clothing and/or coloured trim, hydrogen peroxide
7, 8 Coloured work clothing

Washed with programme no. 8 as specified in ISO 15797
Then dried in the tumble dryer or tunnel finisher and tested

BP® quality. Even after many washes.

Some of our products do **not** carry the PRO label. Nevertheless, they may be washed in an industrial laundry in certain circumstances. Extensive test washes should be carried out on these products especially, to ensure the correct care procedures are used. We classify our products' appropriateness for industrial laundering as follows:

- Low level of appropriateness for industrial laundering:** ≤ 40 °C, air drying
- Medium level of appropriateness for industrial laundering:** ≤ 60 °C, lower drying temperature
- High level of appropriateness for industrial laundering:** ≤ 75 °C, tumble/tunnel finisher drying

Successful cleaning and the wear and tear on clothing are determined by the following four basic parameters: chemistry, mechanics, temperature, time (Sinner's Circle). To keep things simple, the classification above only considers the washing and drying temperature. The other factors should naturally also be taken into account when carrying out real-life test washes.

In the product finder on pages 132-134 you can see which PRO labels apply to our products.

Looking good in any situation.
